He angitūtanga: The opportunity

Do you want to work in a dynamic team that captivates positive change for the Auckland Region?

At Auckland Council, we all share one common purpose and that's to make Auckland a world-class city. It's an exciting time of change, so why not be a part of it and know that you are making a difference in the community.

The intern programme will see you spending considerable time out of the office monitoring a diverse range of consented activities, developments, commercial activities and some of the country's most complex and critical infrastructure projects all with a view to protect the environment and the people who enjoy it.

As a Compliance Monitoring Intern, you will be based in a key functional team and will be working exclusively with RMA (Resource Management Act). Here you'll have the opportunity to gain the full monitoring experience and enforce conditions on resource consent applications.

You will work in a fast-paced team environment to provide specialist monitoring and enforcement advice in a timely and accurate manner requiring effective customer relationship skills and a "can do" attitude.
